

**Resolution
of the Czech Rectors Conference
Public and State Higher Education Institutions Rectors Chamber**

Prague, 25 October 2013

Invitation of public higher education institutions Rectors by the President of the Czech Republic to the celebration of the state holiday of the Czech Republic related to awarding by state awards we have always understood as a symbolic manifestation of the importance of these institutions for society and state. Invitation of only some of them and rejection of others we consider very unfortunate.
